waives and disclaims the terminal portion of the term of the entire patent to be granted upon the above identified application subsequent to the expiration date of any U.S. patent to be granted upon co-pending U.S. Patent No. 6,852,725 issued February 8, 2005. Further, any patent granted on the above identified application shall be enforceable only for and during such period that it is commonly owned with any patent granted upon co-pending U.S. Patent No. 6,852,725 issued February 8, 2005.

The Assignee identified above does not disclaim any terminal part of any patent granted on the above identified application prior to the expiration date of the full statutory terms of any patents granted upon co-pending U.S. Patent No. 6,852,725 issued February 8, 2005 in the event that any related patent later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321(a), has all claims cancelled by a reexamination certificate, or is otherwise terminated prior to expiration of their statutory term, except for the separation of legal title as stated above.

This disclaimer runs with any patent granted on the above application and any patent granted on co-pending U.S. Patent No. 6,852,725 issued February 8, 2005 and is binding upon the grantee, its successors or assigns.

Enclosed is authorization to charge for the required fee pursuant to 37 C.F.R. § 1.20(d).

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false
